# DuraBlue II™ Series Adhesive Melters

20 and 45 liter melters

## Provide easy, reliable material delivery for low to mid-speed adhesive bonding processes

Nordson DuraBlue II series melters are designed to deliver hot melt adhesive in support of low to mid-speed production. The metering spur-gear pumps with variable-speed AC motors and key-to-line functionality satisfies a wide range of manufacturing requirements. A non-stick coated tank and reservoir design reduces adhesive degradation while maximizing adhesive throughput. The versatile control panel offers a choice of programming methods using either the keypad or arrow keys.
